WHO WE ARE

Delta Elevator Co. Ltd. has been in business since 1967. With a strong background in elevator maintenance, repairs, modernizations and new construction, Delta's products are field-tested and are of the highest quality.

Delta's manufacturing plant is in the heart of Ontario's technology triangle.

Our engineering department has drawn heavily from the University of Waterloo, which is world-renowned for its advanced computer and engineering studies.

With sophisticated manufacturing equipment and processes, our elevator products are of the highest quality.

THE BEST SOLUTION FOR HYDRAULIC AND LOW-RISE TRACTION ELEVATORS.

DMPC CONTROLLERS

Delta's DMPC (Distributed Multi-Processor Control) Controller offers our customers the following features:

- Greatly reduces the quantity of wiring from the Controller to the Elevator (data is carried on the serial bus from distributed I/O points).
- Simplex or Group Elevator Operation
- CSA and B44/A17.1 Approved
- Redundant Monitoring of all critical circuits
- Non-proprietary option available through site-specific tools
- High speed microprocessor monitors all Input, Output and Elevator functions
- Diagnostic Logging and Cycle Counting
- User-friendly troubleshooting interface
- Robust and proven Solid State Technology
- Serves up to 31 floors
- Maximizes serviceability with less than 1/3 the number of control boards of other controller manufacturers
